

ENVIRONMENTAL & SAFETY TRAINING FOR TODAY'S WORKPLACE

# Maritime Environmental Training Institute

## OVERVIEW

The Maritime Environmental Training Institute (METI) opened in 1998 and is a Private Career College located in Sydney, Nova Scotia. METI is registered with the Nova Scotia Department of Education and is an active and proud member of the Private Colleges Association of Canada. Recognizing the increased importance of Environmental and Safety Training in today's workplace, METI has worked over the past number of years with renowned experts in the Environmental and Safety fields including Laborers International Union of North America, United States Environmental Protection Agency and Environment Canada.

In addition, METI is associated with Enform, a Petroleum Industry leader in the field of Training and Safety. METI is also a third party trainer with the Alberta Construction Safety Association, as well as a recognized service provider for the Oil Sands Safety Association. In August 2009, Maritime Environmental Training Institute purchased Hatscan Online. METI Online is Canada's choice for online safety training.

METI's students range from individuals receiving career training to experienced workers upgrading or acquiring new skills.

## DIPLOMA PROGRAMS

### Scaffolding Certificate

- 4 weeks in duration, 160 hours including intensive hands-on and classroom components
- One of the fastest growing industries in Canada, individuals certified in scaffolding are in very high demand across the county.
- On-site facilities exceed all industry standards. Students are introduced to an actual scaffolding structure and are trained in the erection, dismantling and safe operation of scaffolding units by experienced instructors.

### Environmental, Health and Safety Technician Program

- Nationally recognized and approved by the Nova Scotia Department of Education. 18 weeks in duration, 670 hours.
- Over 25 industry related certifications included in the course content.
- Skills and training offered under the program are in extremely high demand; companies requiring individuals specializing in Environmental, Health and Safety aspects are actively hiring.
- The hands-on training component ensures optimal preparedness for graduates. State-of-the-art equipment and knowledgeable instructors provide an ideal educational atmosphere.

## ONLINE ENVIRONMENTAL SAFETY COURSES AND TRAINING

### WELCOME TO ONE OF CANADA'S BEST ONLINE TRAINING SYSTEMS

Maritime Environmental Training Institute Online is known to be one of Canada's Best Online Training Systems with over 500 businesses and 11,000 active users currently on our system.

Train your employees with one of the leading online safety training systems designed to meet all your environmental health and safety training requirements. METI Online provides training that helps companies create a safer workplace and ensure an increase in productivity. We have added some innovative features to the online courses and now offer online administrative control for supervisors and office managers. Administrative Control enables management to see exam results, generate student history, print certificates and much more. And best of all, there is no charge for this option. Simply let us know if you are interested.

Individuals completing online training will improve their skills and make them more valuable to their company or potential employer. With online training, you can train anywhere and anytime. Online training provides complete convenience and accommodates your time schedule.

If you have any questions on any of our online courses simply contact us at 1-877-800-6384 or email [training@metiatlantic.com](mailto:training@metiatlantic.com), and we will be happy to work with you in determining the best fit for you or your company.
